

KidLink

KidLink provides information and initial intake for services and issues related to young children and their families.

- **Provides Information** on child and family issues.
- **Helps Families** with their concerns and needs.
- **Connects Families** with resources and services, including health, education, child care, and other services.
- **Connects Families** with **Help Me Grow** programs:
Help Me Grow brings child development services, family support & advocacy, mentoring, and service coordination to families of children up to age 3. Help Me Grow *also* includes specialized services as needed.

Early Intervention Services – evaluation, developmental, and therapeutic resources for infants and toddlers who may experience developmental delays.

Newborn Home Visiting Service – health check for babies and new moms by a nurse and connection to community resources.
